

Keyboard shortcuts

Note

Everything on this page — the heading colour, this box, the keycaps below, the framed panel — comes from `lib.typ`. Nothing is styled twice.

To copy, press `Ctrl` + `C`. To paste, `Ctrl` + `V`.

Tip

Components nest: this callout sits inside a framed figure, both from the library, and they still agree on spacing and style.

Panel 1: A framed panel from the same library.
