

Weekly sync — 12 July

Present Lars, Maya, Sven

Absent Tom (on leave)

Decisions

- We ship the **beta** on Friday, not Monday.
- Docs move to Typst; see the docs.
- Maya owns the release notes.

Action items

1. *Lars*: freeze the feature list by Wednesday.
2. *Sven*: tag the release once tests pass:

```
git tag -a v0.9.0 -m "Public beta"  
git push --tags
```

3. *Maya*: draft the announcement and circulate for review.

Notes

Turnout was good. Next sync is in two weeks—same time, same room.
