

The string is 20 characters long, padding and all.
Trimmed, it is “the-wind-up-bird”.

Split on “-”: the / wind / up / bird — that is 4 words.

Title case: The Wind Up Bird.

Case flips freely: QUIET and loud. Contains “bird”?
`true`. `.find()` returns the matched text, not a position:
“wind”.

Collapsed: too many spaces.

Letter by letter: T-Y-P-S-T.
